ARTWORK SPECIFICATIONS

DIMENSION
- *Artwork should be created at real size, 1:1 scale, or to scale of the finished size. Images to be 100dpi at final size. (i.e. 100% = 100dpi, 25% = 400dpi)*

FORMAT
- *Visualcom accepts all files created using Adobe Creative Suite 6 or earlier and PDF file format is preferred.*
- *We do not recommend large format output from any of the Microsoft Office applications.*

SUPPLIED FILES
- *All colours must be CMYK with specified Pantone colours.*
- *We will match PMS colours as closely as possible to the 4-colour process equivalent for the specified material.*
- *Press ready PDFs can be supplied. However when colour matching is required, original artwork working files must be supplied.*
- *When colour matching is required please provide hard copy colour samples to Visualcom prior to commencement of work.*
- *Please do not embed images as we have no control over colour or resolution.*
- *For best results please convert all fonts to outlines or supply a copy the fonts used for us to load to produce your job.*

FILE TRANSFER
- *Email (below 10Mb) - files can be emailed to image@visualcom.com.au or to your client services contact.*
- *File Transfer - visualcom.wetransfer.com*
